

## **BEDMOBILE LEAFLET REPRINTED**

The Bedmobile range of motor caravan conversions was produced by Taylor Motor Bodies at Sedgeford, near King's Lynn, Norfolk, between 1955 and 1965. Most Bedmobiles were based on the Bedford CA van but Taylor also produced Ford, BMC and Commer versions.

Until recently there was doubt that Taylor had produced any sales literature. Then an original undated Bedmobile leaflet was discovered in the papers of a former company employee by author and historian Tony Beadle during his research into the story behind this little known motor caravan maker.\*

Using the circa 1955/56 leaflet, 50 facsimile copies have been printed to the most exacting standards on the same weight and colour of paper to create a unique collector's item. It even has the two pen lines across the price table (indicating that the prices had changed after it was printed) that were on the original. The red artwork has also been accurately reproduced and the black and white images were scanned individually and digitally enhanced.

As per the original leaflet, the single sheet is folded twice to give a finished size of 7.5 x 5 inches (approx 190 x 127mm). Contents include: Prices and Specifications for a range of eleven Bedmobile models based on Bedford CA van; Technical Data; 26 black and white illustrations showing interior details of all the different models, etc.

Each copy is individually numbered and has 'Limited Edition Facsimile Reprint 2009' printed on the back. Only 50 copies have been printed and will be sold on a first come, first served basis. No more copies of this fascinating piece of motor caravan history will be produced – once this batch has gone that's it!

Cost is £7.95 each inc first class UK postage in a board-backed envelope.

To order write to: Tony Beadle, 55 Howletts Lane, Ruislip, Middx HA4 7SA, enclosing a cheque (payable to T. Beadle) for the full amount – and please don't forget to include your name and complete address.

[ENDS]

*(\*A booklet containing the full story of the Taylor Bedmobile, with previously unseen photographs, interviews with Taylor family members and former company employees, etc, is to be published later this year by Tony Beadle)*
